## INTRODUCTION

# The Age of Smart Restaurants

***In a fast-paced industry like F&B, automation isn't a luxury—it's a necessity. From managing reservations to responding to reviews, restaurants are adopting AI to reduce manual workload, improve guest experience, and grow profitably.***

***This guide walks you through the smartest automation solutions available today.***

A top-down view of a rustic breakfast spread on a dark, textured wooden table. In the upper left, a clear glass bowl with a dimpled pattern holds several bright red strawberries, with a silver fork resting inside. To the right of the bowl are several slices of rustic, golden-brown bread with a porous interior. Below the bowl is a small glass jar of honey. In the lower left, a white cup is filled with dark coffee. To the right of the coffee is a white plate with a red rim, containing a vibrant red jam spread on a slice of bread. In the bottom left corner, there is a glass of white milk. Next to it is a small glass dish filled with fresh raspberries. In the bottom right, a wooden honey dipper lies on a grey cloth napkin, next to a sliced kiwi fruit and a single raspberry.

# AI Automation for Restaurants

## WHAT IT MEANS

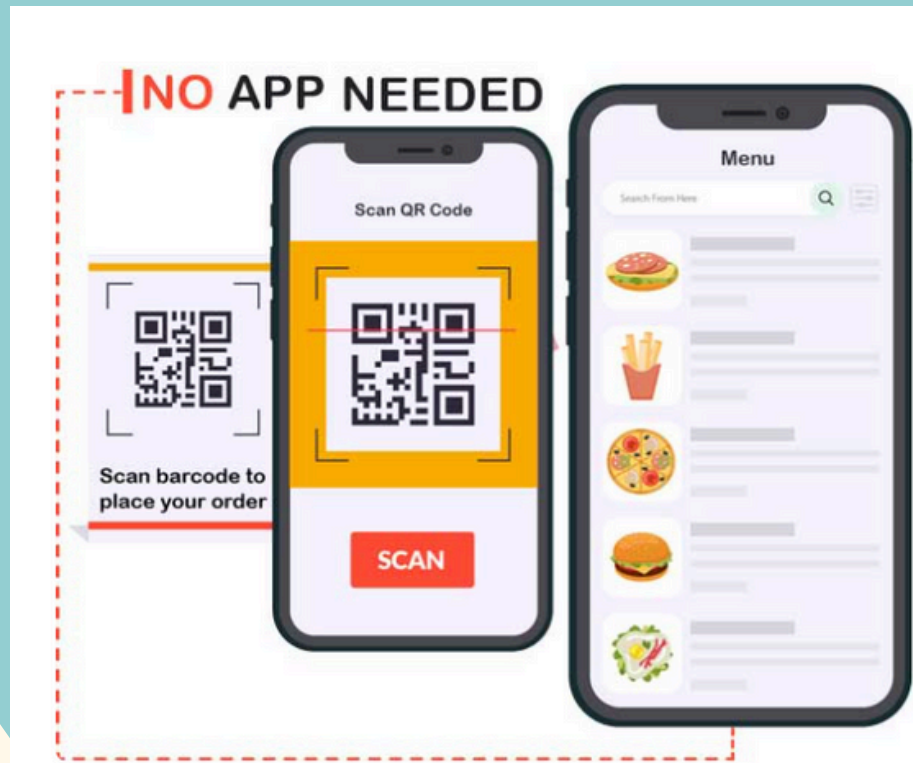

- AI Tools
- Automate Daily
- Reporting
- Customer Response

## Why it matters

Saves time, reduces errors, increases operational efficiency.

## Example Use Cases:

- Auto-respond to common customer queries (e.g., hours, location, menu)
- Analyze sales trends and suggest offers
- Monitor kitchen supply consumption using sensors

# Post-Visit Feedback & Google Review Booster

## WHAT IT MEANS

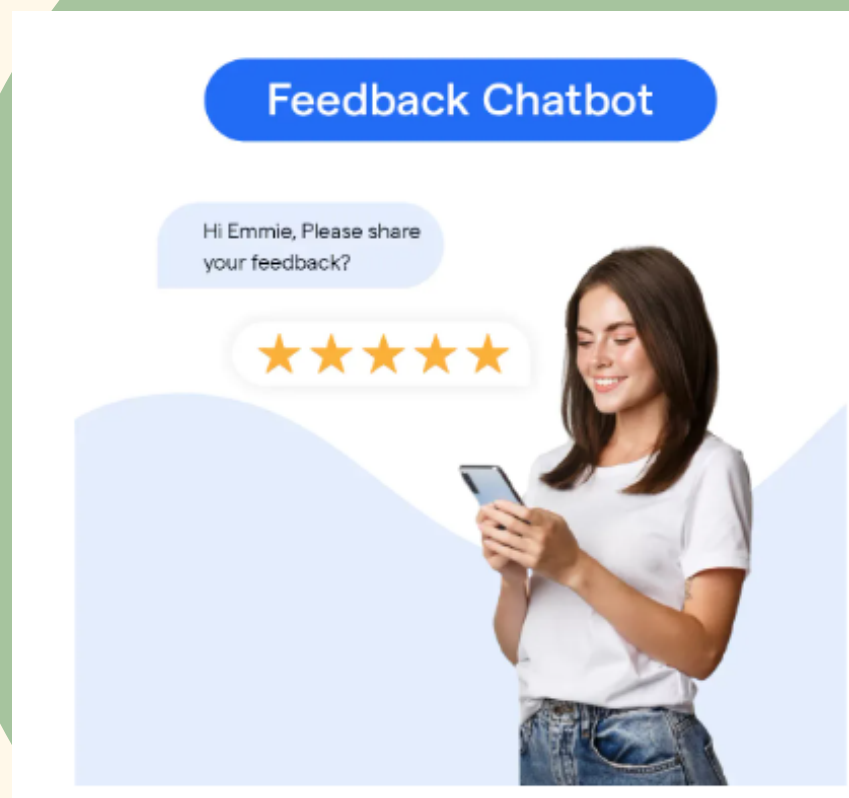

- Saves time, reduces errors,
- increases operational efficiency.

## BENEFIT

- Builds strong online reputation
- Collects valuable feedback for internal improvements
- Increases your visibility on Google

## STATS

Restaurants with more than 4.5-star ratings get 33% more clicks on Google Maps.

***Lunch***

# Voice Bot for 24/7 Table Booking or Inquiry

## FUNCTION

*A conversational AI that picks up calls even after hours and handles reservations or queries.*

## BENEFITS:

- No missed calls or customers
- Works even when staff is unavailable
- Professional brand image

## SAMPLE DIALOGUE:

*"Hi, welcome to Spice Grove! Would you like to reserve a table or hear today's special?"*

# AI-Powered WhatsApp Reservation Assistant

## WHAT IT IS

*A chatbot that takes table reservations via WhatsApp with real-time slot updates.*

## BENEFIT

- People prefer texting over calling
- Reduces workload on front desk staff
- Integration with Google Calendar or POS

## BONUS

**Sends automated confirmations and reminders.**

A collage of food images. In the top left, a woven basket holds several pieces of naan bread topped with melted cheese and green herbs. To the right, a white bowl contains a thick, orange-red soup or stew with a spoon resting in it. The bottom left features a dark plate with golden-brown fried chicken pieces and a side salad of green and purple leafy vegetables. The bottom right shows another portion of the salad. The word "Dinner" is centered in a white box with a green border.

***Dinner***

# Reservation No-Show Follow-up

## FEATURE

*Automatically messages no-show customers to reschedule or collect feedback.*

## WHY IT'S NEEDED:

- Prevents table wastage
- Allows re-engagement with lost leads
- Shows that you care

## TONE

**Friendly and polite**

*Sorry we missed you! Would you like to rebook or let us know what went wrong?*
